## **AccuTech University Announces Expanded Wealth Management Training in 2008 in Response to Industry Demand**

*--Classes added in Raleigh NC, Dallas TX and Carlsbad CA to maintain designations/provide trust management certification for financial professionals and institutions across U.S. looking to expand services for retirement--*

Muncie, IN – January 23, 2008 – AccuTech Systems Corporation (a trust and investment management accounting software provider), in partnership with Campbell University and The Fiduciary Education Center, today announced availability of AccuTech University’s 2008 schedule, with expanded accredited trust management training in Raleigh, Dallas and Carlsbad areas to address high demand. The new schedule can be found online at <http://trustasc.com/newsite/accutech-university.aspx>.

“We have been very pleased with the response to our AccuTech University wealth management training in its first year, as more and more financial institutions and advisory firms place an emphasis on expanding services to baby boomers approaching retirement. The success of AccuTech University can be partially attributed to the fact that trust and investment management is being considered a growing career opportunity,” said Ray Unger, president of AccuTech Systems.

“I have been searching for training that would not require extensive time away from the office and compliment the budget of a small trust shop, ATOP I was informative, cost-effective and enjoyable,” said Kelly Field, First National Bank of Monterey.

“The teachers are very well informed with extensive trust backgrounds. They kept the class interesting and lively with pertinent anecdotes from real situations. I left the class feeling more informed, but not totally overwhelmed. I would recommend this class to any trust operations professional,” said Donna Batchelder, Ledyard Bank.

With all courses accredited through Campbell University—the only university in the U.S. that offers BA and MA degree programs in Trust management—professionals can earn Accredited Trust Financial Advisor (ATFA) and Accredited Trust Operation Professional (ATOP) designations, maintain Certified Trust Financial Advisor (CTFA) and Certified Securities Operations Professional (CSOP) designations and expand trust knowledge in only one to three days in locations across the country. The ATOP accreditation examination will be offered in Jacksonville, Florida in November 2008.

“We are proud of the fact that the industry is responding to AccuTech University as directly addressing its needs for flexibility, affordability and accessibility in getting accreditation from a leader,” said Becky Kelly, co-partner, The Fiduciary Education Center, Inc.

Three day sessions are \$900 and one day sessions are \$350, if received prior to April 1, 2008. Interested parties may also contact Kim Tudor at (800) 686-0470 for more information.
